

I have a problem that has been plaguing me for days and I haven't been able to resolve it.
I have been using the MSMySQL 1.06 library for a long time to access a Mysql version database.
5.7.

I updated Mysql to version 8.0 and I can no longer access it getting the following error.
Does anyone have a solution to the problem without changing the library I use? Thank you.

```
----- beginning of main
*** Service (starter) Create ***
